City, State, Zip Olympia, WA 98504-0917
Phone 360-902-3000
Contact Kay Caromile, Email: kay.caromile@rco.wa.gov

PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

This project proposes to design large wood trapping structures within the Teanaway River forks that would increase pool frequency, retain spawning gravels, provide overhead cover, increase baseflows, and decrease stream temperatures through increased hyporheic exchange.

Streams with legacies of splash damming, timber harvest, and large wood removal lack the key large wood pieces that would otherwise act to trap smaller pieces. In this, the first phase of large wood trapping in the Teanaway Forks, we will identify a two mile reach in the North Fork Teanaway River, and ½ mile reaches in the Middle and West Fork Teanaway Rivers to serve as pilot reaches. We will design large wood trapping structures to function as key pieces at meander bends and at slope breaks within the rivers.

This project is intended to design habitat improvements for spring, summer, and fall Chinook, steelhead, bulltrout, and cutthroat trout.

Describe existing project site conditions.

The land has been managed for timber and cattle production for more than 100 years. The Teanaway River system is presumed to be the preferred spawning habitat for steelhead in the Upper Yakima watershed. The streams also support Chinook rearing and spawning.

Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra

Will buildings be altered or demolished? If so please complete a DAHP Determination of Eligibility EZ2 form for each building affected by the proposed project and attach the form to your project in PRISM. <http://www.dahp.wa.gov/pages/Documents/Sites.htm>

PROJECT REVIEW SHEET - EZ1

HISTORIC & CULTURAL RESOURCES REVIEW

If no PRISM map, please attach a copy of the relevant portion of a 7.5 series USGS quad map and outline the project impact area.
(USGS Quad maps are available on-line at <http://www.topozone.com>)
