PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

As part of the ongoing Mashel River Eatonville Reach Protection and Restoration Initiative, this project proposes to acquire and restore a five-acre property with 445 feet of Mashel River shoreline in the heart of the Initiative. This project will expand the existing block of protected shoreline properties in this reach to 267 acres; ensure additional available habitat for Chinook salmon and steelhead trout in an important channel-migration zone; and provide access to potential in-stream restoration sites. The project is located along the Mashel River, the largest tributary to the Nisqually River, near Eatonville, Pierce County. A house and outbuilding will be demolished and 4.85 acres of riparian floodplain will be restored.

Describe existing project site conditions.

The site is currently used as a residence, with one house and a small outbuilding, and has been used as a residence since approximately 1930. The property extends into the Mashel River and Chinook salmon and steelhead trout use it for spawning, incubation, and rearing.

Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra

This project will require demolition and removal of a house and outbuilding with the customary mechanized equipment

Will buildings be altered or demolished? If so please complete a DAHP Determination of Eligibility EZ2 form for each building affected by the proposed project and attach the form to your project in PRISM. <http://www.dahp.wa.gov/pages/Documents/Sites.htm>

Yes
