

Volunteer now!

Why Should I Volunteer?

- **Be an Active Member of a Statewide Community**
Grow professionally, challenge yourself, and enhance your resume
- **Become a Better Grant Writer**
Learn what makes a good project and how to score well in RCO's evaluations
- **See What's Happening Before it Happens**
Learn where recreation and conservation progress is occurring
- **Make a Positive Impact**
Improve Washington's quality of life by helping to shape what is funded
- **Make New Contacts**
Many team members include executive directors, program managers, and experts in all manner of conservation and recreation pursuits.

Help Make a Difference

Every year, the state Recreation and Conservation Office works with more than 100 volunteers, who provide important advice on grant policies and funding.

Participation helps to ensure that the funding process remains fair, and that public dollars are spent only on the best projects.

Volunteers are divided among more than two dozen advisory committees, project evaluation teams, and technical review panels. Membership includes the public, agency professionals, and recreationists.

Advisory committees provide:

- **Grant Scoring**
Evaluators review applications and score them, creating ranked lists that are the foundation for funding recommendations.
- **Policy Advice**
Volunteers may give advice on grant program goals and objectives, state plans, evaluation questions, eligibility criteria, and cost increases.
- **Project Technical Review**
Volunteers coach applicants on ways to improve projects before evaluations.

For many of RCO's committees, charter documents are available that detail administration, duties, pay, membership, attributes, and other information.
